We are working on finalizing the ring policy, President Manesiotis asked for e-mail suggestions for the policy.

The Lacrosse Tower is getting closer to becoming a reality; there have been several inquiries to Palmetto Electric and asking for assistance in installing the posts. This will impact the cost substantially. We would like to see this project completed by January. I am a Student Athlete campaign is in full swing and the posters should begin to go up next week.

Finally, the Athletic Department would like to purchase landscaping equipment to take care of areas not covered by Valley Crest's contract. It was asked that if anyone knows of some used commercial equipment please contact the Athletic Department. Coach Well suggested that a representative from the school sit on future contract negotiations so that they may better understand the nuances of our facilities.

Committee Reports: GOLF CHAIRMEN FOUND.....

Coach Meg Hendy along with Greg Viventi will head up this year's tournament. Planning has begun, they will contact local restaurateur Chris Catin who owns Aqua. He has expressed interest in getting involved in the school.

Concession Volunteer chairmen Dave Martin reported the game concession worked well and the Swim Team help on Friday night. He suggested that a few more adults be present to help with the "math".

Barry Taylor Booster Pass Chairman reported that the numbers are down just a bit from last year. This is not a surprise considering the economic times.
