

# Athletic Accident Insurance

Any athlete throughout their career in high school sports may receive an injury requiring medical attention. The district has an accident insurance policy to assist in paying for these injuries. Please note that the school insurance policy is not a 100% coverage policy and is utilized to assist your PRIMARY insurance policy and to assist if the athlete has no insurance.

\*\*IMPORTANT NOTE\*\* If your child has no other insurance coverage or participates with a Medicaid Insurance Plan then a letter from you employer is required to be sent with the accident claim form before any coverage will be considered and before any claims will be processed.
